PERSONAL PROJECTS

1) Alosra and BMMI Shops (06/2022 – 11/2022)

In this project there are two apps. Alosra is used to purchase groceries and BMMI Shops is used to purchase Liquor. In this QR code is used for payment to the shops and also used various payment options like credit card, debit card and also used google map for address selection.

2) Warehouse Management System (08/2021 – 05/2022)

In this project, user can create purchase order for storing items in storage area. User also can stow and transfer created purchase order through manual assign location as well as through scanning barcodes.

2) Break First Box (07/2020 – 11/2020)

The application was created to deliver healthy breakfast to customer.

3) Rental Clothes (01/2020 – 04/2020)

Provide clothes like Sherwani, coat suits etc. on rent so who are not able to buy Expensive clothes they purchase on rent from our application.

4) Happy Product Delivery (08/2018 – 03/2019)

We provide product to only those companies and their Employees who are registered with us.
